# Harsh Dagar

09990728546 in/harsh-dagar-716125256 harshportfolio-gray.vercel.app/

## SUMMARY

Aspiring web developer and BCA candidate (Trinity Institute of Professional Studies) with a strong proficiency in the MERN stack (MongoDB, Express.js, React, Node.js) and a solid foundation in JavaScript. Gained valuable team experience as a Frontend Intern at Go Business India and Codynest Technologies. Dedicated to continuous learning and applying modern web  to build effective and user-centric web applications. Currently expanding skillset through personal projects.

## EXPERIENCE

### Front End Developer
**NexGen Innovators IT Services Pvt Ltd**                    June 2025 – Present,  Dwarka Mor, New Delhi

· I'm working at Nexgin as a frontend developer under the guidance of a senior developer. I help in building small sections of the website, assist with content updates, and make design changes to previously built sections based on client feedback.

### Frontend Developer(Intern)
**CodyNest Technologies**                    January 2025 – June 2025

· My front-end internship at Codynest provided me with valuable hands-on experience in developing user interfaces with React and styling them effectively with Tailwind CSS. I successfully built the landing panel for their website and implemented a comprehensive set of user authentication features, including login, signup, and reset password flows. I also developed key user management functionalities such as account settings, account deletion, account restoration, and user activation/deactivation. I also gained experience in securing the application by implementing route protection.

### Frontend Developer(Intern)
**GO BUSINESS INDIA**                    June 2024 – July 2024,  Uttam Nagar

· During my internship at Go Business India, I actively contributed to three distinct projects. One project was developed for their client , while the remaining two were focused on developing clones of popular e-commerce platforms: Myntra and MakeMyTrip.

## PROJECT

### Doctor Appointment
doctor-appointment-sigma-ruby.vercel.app/

· Developed a full-stack doctor appointment website using the MERN (MongoDB, Express.js, React.js, Node.js) stack, enabling users to create accounts, log in, and schedule appointments based on their availability. Integrated Razorpay for secure online payment processing. Also implemented admin and doctor panels to effectively manage and track appointments.

### Portfolio
harshportfolio-gray.vercel.app/

· This website was developed using React and Tailwind CSS. It incorporates a contact form that allows users to submit their advice or suggestions. Form spree is utilized to securely receive the information entered through the contact form.

### E-commerce
e-commerce1-woad.vercel.app/

· This e-commerce website was developed using React for frontend development, Node.js and Express.js for backend services, and MongoDB for efficient data storage. To ensure optimal user experience across all devices, the website is built with a fully responsive design utilizing the Bootstrap framework.
· Users can easily register with their email address, enabling them to track their purchase history and revisit their shopping cart at their convenience. After logging in, users can seamlessly browse the product catalog and add desired items to their cart. The login process provides convenient access to the cart page, allowing users to review their selections before finalizing their order.

### Student Guidance
student-guidance.onrender.com/home

· This project utilizes EJS (Embedded JavaScript) templates for dynamic content generation. EJS seamlessly integrates JavaScript logic within HTML, enabling efficient and flexible web page development. As a frontend-focused project, the primary emphasis lies on creating a user-friendly and engaging interface.

## EDUCATION

**Bachelor of Computer Applications**
Trinity Institute of Professional Studies · Sector 9, Dwarka,New Delhi, Delhi 110075 · 2025

**Diploma in Computer Applications**
Gro Tech Learn Foundation · Najafgarh, New Delhi, Delhi, 110043 · 2022

**10th and 12th**
Navyug Convent Sr. Sec. School · Sainik Enclave 2, Najafgarh, Delhi, 110072 · 2021

## SKILLS

- **Frontend:** React.js, HTML, CSS, JavaScript, Bootstrap, Tailwind, Redux Toolkit

- **Backend:** Node.js, Express.js

-**Database:** MySQL, MongoDB

- **Tools:** Postman, Thunder Client, NPM, Render, Vercel, GitHub

- **Version Control**: Git

-**Language**: C, C++, JavaScript
